PAUL N. GOLD*

Aversano & Gold is a small trial firm concentrating in large, catastrophic personal injury cases, including wrongful death, traumatic brain injuries, burns, paralysis and other life-altering injuries sustained through medical malpractice, truck wrecks, premises and workplace accidents. We are passionate about the practice of law, dedicated to our clients and committed to protecting the right to trial by jury. We have been very successful in obtaining substantial recoveries for our clients needing lifetime care and replacement income. As we start our fourth year, we look forward to even more opportunities to represent and help those seeking justice for injuries suffered from the wrongdoing of others. We welcome referrals and the opportunity to work with other attorneys.
